“HAPPY VALENTINES DAY”
TO THE YES 21ST CCLC YOUTH
FROM THE IGCC STAFF

National Pancake Day is February 26th. Since Valentine's Day is February 14th, the IGCC staff decided to combine the two events. On Thursday, February 11th, staff members will be cooking heart shaped pancakes to serve the youth and staff. There will be multiple toppings ranging from fresh fruits to chocolate morsels. This will help eliminate some of the traditional candy and cupcakes normally given out on Valentines Day!! From our “Heart” to yours!

A Free Expungement Clinic

When it comes to hearing what the Community wants and needs, Maurice Jordan, IGCC Family Coordinator, does not fool around.

Just as Jordan is concerned about the youth in the YES Program, he is even more concerned about their parents and others in the Greenville community. He pursued forming a collaboration between the IGCC, Legal Aid of NC and the School of Law at North Carolina Central University that resulted in IGCC hosting an Expungement Clinic for individuals that have criminal backgrounds. Starting In October, with only a flyer announcing registration for “A Free Expungement Clinic” to be held in February, this was just the beginning. The response was phenomenal! The deadline for the registration was January 5th. From October to January Jordan received more than 400 calls and 175 applications!!! Jordan stated that he received calls and applications from as far as Texas and New York!!! February 20th is the date for the event and The IGCC Connect will report the results in next months edition.

Maurice Jordan; Director Moody and entire the IGCC Staff salute you for living out the IGCC Motto........."WE GET IT DONE!!!

**Quilting and Health Screenings Helps to Keep IGCC Seniors “FIT”**

Seniors participating in the **Quilters Club** at IGCC have expressed that quilting is therapeutic for them. They’ve expressed that their minds are relaxed while quilting and each mistake becomes a new creation. It also serves as a social gathering where lasting friendships have evolved. But just as the mind needs therapy, so does the body.

The weekly **Health Screenings** are another great contribution to the wellbeing of the residents in the community. The blood pressure screenings done on pressure campus every Tuesday help tremendously. Nurse Sharon Mallette and ECU nursing students work diligently to give blood pressure readings and recommendations to participants.

Then it all gets summed up on Thursdays’ when the seniors are able to receive **Weekly Produce** to help with preparing healthy meals. IGCC, once again, making it happen!
